## **Womens Food Alliance Expands Its Leadership Team With Cultural and Career Diversity**

The Womens Food Alliance is maneuvering the tides of change with the diversity of careers and cultures for women! Celebrating its 13th anniversary, WFA nurtures and supports strides made and successes yet to come! The future in hospitality reveals promising trends — as WFA expands its Leadership Team to stand together and discover opportunities as a 'sorority' of business leaders.

The hospitality industry offers a vibrant career path. Led by Founder Leigh Cort, the Womens Food Alliance is and has been, since 2013, dedicated to empowering members and providing them with connections and opportunities needed to advance. Continuous learning and networking are essential! Building a strong caring network opens doors to new ideas, industry knowledge and support from peers. It's simple: engage with industry associates, attend meetings and events! Sharing trends, technologies and customer feedback is crucial to staying ahead with an open mind.

Through the years, Womens Food Alliance members have become trusted mentors, which plays a pivotal role in career growth. Fostering a supportive organization is vital to thriving and achievement.
